Dear Sir:

I have been for more than two years anxious to get a delegation of Navajoe children at this school & have arranged & corresponded with reference to it until now I find that it could be brought about. During the winter I had a half-breed Navajoe girl at the school named Antonette Williams who had been for some three years at a school at Blairstown, N. J. When sending our pupils home in June I sent Antonette to her agency with the special view of working up a delegation of Navajoe children. After sending her home I found that it would cost us over $700 more for transportation to get Twenty Navajoe children here than it would to bring Twenty children from Dakota or Mid. Ter. The transportation was not considered in my

upon which was based the appropriation for the school. estimate of the expense, but it was added in the Senate that the amount appropriated should include cost of transportation to & from the school. Under these circumstances $700- was such a material sum that I at once asked that I might bring children from Dakota or the Ind. Ter. & was authorized to bring the 20 from Ind. Ter. I now have the inclosed letter from Antoinette. It would seem that if it is possible to work up a delegation of children under such adverse circumstances there should be no failure on our part in bringing them in. The full number of children authorized & which I can carry on my appropriation have been ordered from Dakota, Nebraska & Ind. Ter. & yet I could undertake these 20 children if it were not for the expense of transportation. I write this to you to ask if the interest of the Presbyterian Board in the Navajoes is sufficient to stand by me for the expense of transportation for 20 Navajoe children. The A.M.A. is constantly helping Armstrong with his Indians. Twenty children this year from the Navajoes might lead to a great many more next year. I certainly think it one of the best Indian fields. An early reply will much oblige.

Very respectfully.

Dear Sir

Your letter of the 5th Inst was forwarded to me at this place - And in accordance with your request I enclose herewith my Check on the Trenton Banking Company. N.J. to your order for five hundred Dollars ($500) to be Expended at yr discretion for additions to the Sheldon Jackson Collection in the Museum at Princeton I understood from Prof Guyot that you had Consulted with him in relation to the nature & kind of articles most

needed in the museum and that would add to the permanent value of the Collection. Such being the case it is unnecessary for me to add any thing upon the subject

Wishing you a pleasant & successful journey I am

Dear Dr Jackson
(Do you remember
this day five years ago
you & I arrived in
Wrangel ?) I cannot
promise to write you
much because I have
been suffering for the
past month very
much with my eyes,
Dr Dubose from the
Gun Boat has been
treating them & they
are much better now
but far from well,
He forbid me to write
any this mail, But
I thought I must write
a little, But I think

I must ask You to take my
"Itemized Accounts & make
the estimates You wished me
to make about the Groceries,
I would do it willingly, but
as my eyes are now it is
impossible & they may not
be any better for sometime.
There is one thing I want you
to do for Lillie. That is to
try to get her a small organ,
"A Baby Organ" would be
better than none. She
writes that she has so
much trouble about the
singing. Her voice was
always weak & she says
she has almost lost it.
A small instrument would
help her very much.
She writes very encour-
agingly of her School.
You will hear from
other sources of the —

from fire lately. I
I have been advised
by several persons
to have the roofs pai
nted. A gentleman
who understands all
about says one barrel
will be sufficient for
all our roofs. If you
should decide to bring
it you will also need
to get two good stiff
brushes to put it on
with. Mrs Graham writes
that Miss Gould & Miss
Rankin will both be with
you. You speak of Miss Mary
Gould both in my letter
& in Mr Youngs. The arra-
ngement all the time

affliction of the Villards, we are very anxious to hear from them. The Gun Boat was up at Sitka last week & Dr Dubose told Mr Young he feard Mrs Villard had not strength to live through her confinement. He says she is very far gone in Consumption. Aug 15th I had the above written before the Steamer came with the surprising news that You would be up next Steamer, I will send it to Portland. I believe there is nothing I want You to bring unless it is a barrel of "Fire Paint" to paint the roofs of our buildings. We have had two or three narrow escapes

My Dear Doctor:

I have not had much "heart" for writing, since the adjournment without action for our country.- otherwise would have written you before. I saw my friends on the proposed Educational provision, & found them very easy to persuade — or rather already prepared to help the cause, but the last few days of the session were a perfect nullity, so far as the perfection of anything not offering a "consideration" — an equivalent — to the parties controlling the bills or their more immediate & strong supporters. — I made every effort I could, on all the points, & have letters to show that from various members, but it was a vain fight for

a long time previous to adjournment, & feeling it to be so was a serious barrier to what might have been the better effectuality of my efforts. — My friends think everything will go through right, next session, — except that they are not sanguine of my recognition, but think there will be even a better show on that. — The bill — some bill — & the educational provision I hope will certainly go through. Burrows promised me positively, (& George of Oregon knows it), to do all he could to take up his bill, & when Page asked that he be allowed to do it, he tried to run the Dakota bill in instead — But it was useless for either one. —

I will make a visit to N. Y. early this fall, on business of mine, & would like to confer with you as to the best way of presenting all our matters, at the next session. Will you

let me know when you will be certainly there, during the fall. — I had hoped to go to Alaska, & it is still not impossible, but rather not now to be expected. But I would like to go, even if I only go & return on the same steamer. —

Some of my papers were lost coming over, & among them some receipts on a land purchase, for moneys I paid by cashing the checks of Messrs Brady Lyons & Austin, & Miss Linnie (I think) & sending them on to parties here. I have written your Secretary, asking him to examine their checks, between Jan 1 1879 & June 30/81 & let me know the amts, &c, & such as appear with my endorsement. Will you be kind enough to explain to him the object of my request, &c. — With regards to your family, & remembrances of my own

Very truly yours

Gentlemen.

I am in receipt of a letter from the Department of which the following is an extract.

"Treasury Department.

"Collector of Customs
"Sitka Alaska.

Sir.

I learn from Rev. Sheldon Jackson, that the Board of Home Missions. of the Presbyterian Church, are about rebuilding the burned school house at Sitka, and enlarging their

educational arrangements. Dr. Jackson has requested that the building materials. lumber, hardware &c, for the contemplated building, being for a public service should be received on the Government wharf at Sitka free of charge. You are hereby instructed to make such arrangements with the parties temporarily in charge of the wharf. as that the materials &c, for that purpose shall be received free of charges to the Board of officers or its agents, provided that the Government incurs no expense, or liability thereby."

I will thank you at your earliest convenience, to give me your views in writing in reference to the matter, so that I can communicate them to the parties interested.

Sir.

I have the honor to acknowledge the receipt of Department letter (H. B. J.) dated July 20, 1882. Upon the subject of free wharfage on certain building materials, which the Presbyterian Missionaries contemplated importing here.

As soon as practicable after the receipt of your letter, I wrote the North West Trading Co, who have charge of the dock, and now have the honor to enclose copies of the correspondence had upon this subject.

In accordance with the terms of the agreement made and entered into by my immediate predecessor Mr. Delany Ball and this Company, I cannot see how I am to insist upon free wharfage for the

Missionaries, without involving the United States in some form of liability, and this I am forbidden to do in express terms in your letter.

I have reason to believe that the present financial condition of the wharf at this port will soon be made an object of inquiry by yourself, and that I shall be called upon for a history thereof and full report. I am ready at any moment when directed, to give a full account of this remarkable scheme.

Sir

In reply to your favor of 22d inst I beg to say that whereas the Sitka wharf is indebted to us for over $ 1000 00. I do not feel at liberty to waive the claim for wharfage on merchandise consigned to any private individual. We have to pay our own wharfage at the same rates as are charged to other shippers and I can say that about 2/3 of all the wharfage receipts

at this port are paid by us. Therefore I see no reason why we should be required to contribute this amount to the Missionary Cause in this Territory.

We are desirous of discontinuing all connections with the wharf if the government will reimburse us for money advanced. We acknowledge the title and control of the wharf to be vested in the government and acting under your instructions as Collector of this port. Hence I do not think that the government should ask us to do this provided it incurs no expense or liability thereby.

I do not wish to waive any claim which may grow out of this Missionary wharfage, whereby it might be applied to reduce the amount of money we have heretofore advanced, to build and repair

the Wharf.

I am willing however to submit the following proposition - Said building material etc. of the Missionary to be landed on the dock, measured, and wharfage charged thereon, at customary rates but no money to be paid therefore until this whole wharf question is decided by the Secretary of the Treasury. The Missionary to enter into an agreement satisfactory with Security if required to that effect.

Very respectfully

Dr & Fellow Laborer.

Dear Brother.

Your kind note was received in due time, and for a few days after its reception I hoped to enjoy the pleasure of meeting you at the place designated, but a severe attack of rheumatism prevented.

By reference to the letter forwarded to you some time ago, it will be seen that Bro Kind's idea, as well as request, was for a small Tent, which, as we understood it, was to be owned

and controlled by that particular Mission. As there seems to be a lack of confidence in parties disposed to controle or dictate in matters connected with Mission work in Alaska, and as the Chilcat seems to be the most isolated and consequently compelled to suffer more privations than the lower missions, it would seem desirable, that they should at all times, have some means at hand by which they could communicate with the outer world as well as be able to supply their wants.

My reasons for having contributed sent to your wife, 1st because your

had the confidence of the people,
and 2d because I knew you had
the Chilcat Missions interests
at heart. . . . . .
My daughter estimated, (or some
one for her) that the kind of boat
suitable for their purpose would
cost five hundred dollars, I plead
it at sight in order to cover ex-
pense of delivery,
It was with the understanding
that it be according to their wish
that I pledged one hundred dol-
lars, and am doing what I
can to raise the remainder.
In the article sent to Ths
Home Missions, as also to
several other papers, you will

Notice contributions were request-
ed to be sent to Galesburg Ill, as
they were not intended to go into
the Board, but kept a private
matter. Was this right?
The Rev Banvier by some means
had it changed to New York.
Will you be kind enough to preserve
this letter, and if spared to reach
our dear children in their distant
home, kindly convince them,
that it has been my wish as well
as effort, to comply with their wishes.
When you come together perhaps
it will be thought advisable to take
some other plan. In the mean time
please ascertain prices that no time may
be lost, if the amount be raised.
Truly yours Mrs Jos White.

Dear Friend.

Yours of the 7th Inst' at hand and in reply I have to state that while it would give me great pleasure to consider your request relating to land in Liberia, it is out of my power individually to act in the premises as the land although standing in my name is held by a company of four. As some expense has been incurred in purchasing a portion of it, and in laying

keeping and cultivating a small section of it to assure the legality of the claim.

I doubt the possibility of obtaining the consent, of all interested to donate the land, just at present.

As soon as convenient I will communicate with the parties and inform you as to their decision.

As you know, my heart is interested in mission work in Alaska where a grand field worthy great exertion awaits the Christian agents of civilization.

May patience and zeal, commensurate with the fruitful vintage that must ensue from a practice of these virtues, illustrate their lives in the consecration of their works, in

my earnest prayer.
Wishing you a pleasant
and successful voyage I remain
Truly yours

necessary to trouble you again.

Our dear children in their dis-

tress and weakness, have applied

to me to become help. By the

last letter rec'd, and forwarded to

Mrs Haines you can learn their

situation. Daughter does not

say which she prefers, male or

female; but considering her present

misfortune in losing the use of

her hands, at least for a time;

it seems advisable to secure

the services of a man, who can
serve in or out of the house,
having not much of the
qualities of the Chinamen, I am
willing to send in San Francisco
co, to secure, through Mr Todd, or
some of the ladies engaged in
Mission work, a suitable person,
to be ready, if possible, for the
[illegible] next.
My object in writing at this time, is to
ask whether, should you multiply
cases and labors, it would be
possible for you take charge of
[illegible] means for passage,
if one is deceased. Daughter
said she expected they would
have to pay the passage. It has

Dear Brother

Enclosed please find a letter which I borrowed and have neglected to return. In regard to the Saw Mill for Alaska, have you applied for a permit to use what timber we need for building purposes? We wish to have every thing in order so we will have no trouble with any one who may wish to impede the work. I received yesterday a letter from Mr. Gould in regard to his library, but think I will have to wait until fall before we purchase any thing

further as I wish to confer with Mrs James. Read also letter from Mr. McFarland telling of the safe arrival of the medicines, free of charge. I hope to send $50. to the Saw mill fund tomorrow.

Sincerely Yours

Dear Dr Jackson:

I am much obliged to you for the facts which you sent me concerning the Alaska Mission work and have been thinking much of them to see if I could in any way help on the work. But I was not able to bring about an evening meeting at Seabright, as you suggested. When I said that "our School will give $250 - if they do not I will - you may look to me for it", I did not

know that it must be paid in August. We were just dispersing and have no means of collecting money until Sept. when we will take it up.

I do not want the School to owe me, as I can not then properly ask them to pay the debt but I can now appeal to them to do it. So I do not want to advance it for them.

If then your Board will advance the $250 I will see that it is repaid after we assemble

again.

Please let me know how much of the $10.000 needful you have raised.

Sincerely yours,
D. W. McWilliams

My dear Sir

I talked with my friend about your saw mill We both think your better plan is to employ a pioneer sawyer or millwright in California or Oregon. One who is accustomed to primitive saw mills. Then let him select an old fashioned up & down saw & the necessary bearing & shaft & bed castings & let him manufacture the wheel & balance of mill on the ground. As you do not need rapid work, nor need to compete with

other mills you do not need modern Machinery.

The best modern supplies I know of are sold by "Risdon Tyler & Co Mount Holly N.J." You can get their circular.

Dear Brother.

Enclosed please find list of packages in the box marked "For H. Wrangle" and containing parcels for various places. The other box only contained things for Mrs. Willard and a package for "Lillie" Please find also enclosed a check for $25.00 to purchase three rocking chairs one arm chair for Mrs Willard - one without arms - but high back, for teachers room - and one arm chair for Mrs. Corbin's. The chairs I looked at here, were of fine cane similar to the seats in the elevated R.R. cars. and prices $4.75 and 4.25. There may be some charges on the boxes which you will pay out of this, and what is over might be used in purchasing a few relics or curiosities -

I will have to trouble you with one book for Mr. Gould. It is one he asked for and as it was a medical book seemed desirable for him to have it as soon as possible and I could not get it in time to put in the box with the others.

I hope the Willards have a good bed. if not. I would rather the money would be used for that, than to buy curiosities. Perhaps you had better purchase two mattresses instead of one. and not get any curiosities especially for me.

Miss Dodge is with us for a few days. She brought $75.00 for the "Steam Launch" for Alaska which I shall report to Mrs White. It is a "little gift." from three ladies in Malden Mass. who have not much means. and who knew nothing of Mrs. Whites plans. but were interested in Alaska. and Miss Dodge told them a Steam Launch was needed

by the Missionaries. Is it not blessed the way God goes before preparing the way for His work? May you be blessed by a consciousness of His presence in all your journey and work - Mrs. Gregory in leading the prayer meeting at Asbury Park that Thursday - requested that we especially remember the wives of our Secretaries and Synodical Missionaries who have to bear the family responsibilities as well as separation from their husbands - and our hearts most earnestly responded to the request.

very sincerely

Dear Sir

The Home U. S. & this place are making efforts to secure money for a Steam Launch to play in the waters of Alaska, I noticed & and your a report of U S Navy engines From which you will see that to make such a boat safe in the hands of unskilled engineer it will be necessary to use either a Coil boiler or a Lufley boiler These boilers are made of Gas pipe and are Entirely none explosive, (1) Pint cylinder, Corrosive and Condensing engine would also be desirable for economy of fuel.

Dear Dr. Jackson;

Your letter of the 7th July, announcing your arrival by the Sept. Str. just rec'd. We bid you welcome again to Alaska, & regret that the Presbyterian is to be rebuilt. We will welcome Miss Mary Gould (I thought it was Miss Clara) with open arms - you may tell her. The news concerning the state of health of the Willard family is distressing. We anxiously await developments. Mr Wadhams can send you particulars. I have written inviting them to come here as soon as Mrs. Willard is able to bear the journey. We pray for sick - ness may not be unto death.

There are no carpenters at all now at Wrangell & I am afraid you will have some difficulty in employing those you will find at Juneau as they are mostly interested in Mining & wages have been from four to five dollars per day. I do not think there are any good carpenters at Sitka either. However you may be able to secure some at Juneau. There are a number there. If it were not for the great expense of traveling your Agent from Nanaimo to the Sound. The boats now go to Juneau before going to Sitka.

I received Capt. Beardslee's report & thank you for it. Have

I must also give you the thanks for Schaff's Bible Dictionary? Pray accept warmest thanks. It is a most valuable work & fills an otherwise vacant niche in our library.

We have been busying in the Ministers' Institute & Convention for the Home & other institutions. Will go again after Conference.

Farewell until we greet you here.

In haste,

Yours in Christ' work,

A. Hallgreen.

Dear Brother
I thought I would write a line to you to San Francisco, It may reach there before you leave. I have written to Portland about fire paint for our roofs, as we have had two or three narrow escapes from fire lately I have been advised by several persons to have the roofs painted. A Gentleman has given me the Address of a firm in San Francisco where the best kind can be had. He says a barrel will paint all our roofs, should

San decide to get the
paint it will be neces
ary to bring two good
stiff Brushes to put it
on with. I dislike
to ask for any added
expense. But perhaps
it will be a great sav-
ing in the end.

Dear Dr Jackson,

The Glenora came in to-day, bringing me both of your letters. I will do just what you wish. Mr Brady thankfully took your advice, & at the evening prayer meeting, announced a public Concert. Held a Service at 11 a.m. Many excursionists were present. Prof Mertie, & Mrs Wadhams gave us their assistance, & delighted with the latter gentleman. Mr Hayes & Willard took part in the Services. I invited the other gentlemen present also, — Hope procured to take part a fortnight if there were any. Shall be pleased to receive. Now let me answer your questions. Mr Brady has an Army wagon. Each

will answer our purpose.
It can be bought for, Fifty
owt (£2 50), they were going to
take it to the Quines, but I
asked them to keep it until
you came. Think it will
answer our purpose.
In your list of building
material you do not mention
Stones, Shingles, Tar paper
Terra cotta pipe &c. Will
two Kegs 4d nails be enough?
Am using the large box
Stove just sent for our
Church, in our School room.
Think if we use the old
Church this winter we
will have to remove the
old iron roof & replace it
with a new one, either iron
or shingles. — Will need
another Stove for it. Will
the Cook & box stoves be
enough for our new building?
Have a Tank Wheelbarrow,
& can borrow as many as
we may need.
We need seven hymn books,
& some Cornish for a Black
board. Think Mr Matthews
will give us the books —

Brick we can rent the
Lumber Store & thus
avoid mortgage. Will consult
it, & see that it is properly
taken care of. Will attend
to all the suggestions made
in your letters, & do all that
can be done by way of prepar-
-ation. A bill of Goods would
be useful, as we can do
much ourselves in finishing
the inside work. Have credited
the Ch for $500.00 Will send
this letter by Mr Whitehouse.
He is very sick & pray ing
God to bless & speed you on
your journey I will close

A. Christian.

My dear Sir:

I find that there are constant calls from societies all over the country for a history of the school and its plans and objects. Much valuable time is taken up in replying to these inquiries and sometimes they remain but partially answered because of the labor and vexation of writing the same thing over & over again. I think I shall get up a little circular embodying the needed information. I write to you for assistance. I want every thing that has been printed in regard to the school that you can lay your hands on - and I also want you to write me all the facts in connection with the school's establishment.

You were here at the birth and know were as I understand the father and you can therefore give me much material that would be interesting.

Please send me the minutes of the General Assembly that you promised.

Don't omit my name from your paper's list – I have not received a copy yet.

When you go to Washington please urge on Mr Cook the necessity of having our new building built with a view to the future. We want it in such a shape that additions to it will add to its appearance.

More than that however we want the building that will be erected this winter large enough for our school. It ought to have a capacity of 100, and it won't have if the plan I saw in the hands of Dr Thomas is carried out.

I am looking for you this fall and will be very glad to see you.

I know that you are very busy but I hope you will soon give me the historical items I want. If you were less busy I should not expect a very quick response.

Yours very truly

HALF RATE MESSAGE.

The business of telegraphing is liable to errors and delays, arising from causes which cannot at all times be guarded against, including sometimes negligence of servants and agents whom it is necessary to employ. Most errors and delays may be prevented by repetition, for which, during the day, half price extra is charged in addition to the full tariff rates.

The Western Union Telegraph Company will receive messages, to be sent without repetition during the night, for delivery not earlier than the morning of the next ensuing business day, at one half the usual day rates, but in no case for less than twenty-five cents tolls for a single message, and upon the express condition that the sender will agree that he will not claim damages for errors or delays, or for non-delivery of such messages, happening from any cause, beyond a sum equal to ten times the amount paid for transmission; and that no claim for damages shall be valid unless presented in writing within thirty days after sending the message.

Messages will be delivered free within the established free delivery limits of the terminal office. For delivery at a greater distance a special charge will be made to cover the cost of such delivery, the sender hereby guaranteeing payment thereof.

The Company will be responsible to the limit of its lines only, for messages destined beyond, but will act as the sender's agent to deliver the message to connecting companies or carriers, if desired, without charge and without liability.
